

DSES Site Plan for DSES Office at Main Lodge

Site Name: DSES Office at Main Lodge, ground level of gondola building ([Appendix A](#)) - 10001 Minaret Rd, Mammoth Lakes, CA 93546

Directions to site ([Appendix B](#)): From Main St/State Highway 203,

- turn north on Minaret Rd/State Highway 203, passing through the village and continuing uphill;
- upon reaching the Main Lodge area, there is parking along the sides of the road, and handicap parking closer to the gondola building;
- proceed to the lower level of the gondola building, where you will find our office, or will meet us outside if instructed to do so.

Transportation options: POV, ESTA Dial-A-Ride, Carpool, ESTA Red Line, parking shuttles

Parking location & accessibility: There are handicap parking, paid parking, and free parking options. There is a free parking shuttle bus available to be ridden from any lower parking lots along Minaret Rd to Main Lodge. We have wheelchairs available at the office if anyone needs help getting from their car to the office, etc.

Bathroom locations & accessibility: Flush toilets with wheelchair accessibility located in lower level of Gondola building where our office is located. **Also bathrooms at McCoy (I believe accessible from outside) and summit (not sure of accessibility?)**

Drinking water availability: Sink in kitchen to fill bottles. Drinking fountain near elevator.

Access to actual sport site (lake shore, dock, trailhead, etc.) and accessibility issues & mitigation: Easy accessibility to trails. Lifts available for those looking to ride on the mountain, depending on equipment and students' abilities; can also ride uphill to access trails on the mountain.

Weather considerations: Variable weather at any time. The temperature can range from 30°F to 70°F, with some days lying outside of that range on either end. Winds can be calm to gusty. Sun exposure can be quite high, with an elevation of ~9,000'. Bringing plenty of water, sunscreen, sun hat, and several different layers is advisable.

Nearest shelter: DSES Office in lower level of gondola building, or Main Lodge. Garage along Downtown Trail and covered porch at the Mill are options if out on a lesson.

Nearest first aid: Mammoth Mountain Bike Patrol located in lower northeast corner of Main Lodge, near base of Chair 1, accessible from parking lot. AED located in DSES main office sprinkler closet. There is also bike patrol at the summit gondola building.

Route suggestions and maps: maps as appropriate

- Dirt trails – hiking
 - Link to [Mammoth Mountain hiking trail PDF](#)
 - Trail to Minaret Summit and back ([Appendix C](#)) - foot traffic only
 - Trail to Reds Lake and back ([Appendix D](#)) - foot traffic only
 - Discovery Nature Loop - foot traffic only, has nature info too

- Lift accessed trails
 - Chair 11
 - Discovery - Green - smooth trail, no major obstacles
 - Adventure - Green - a few more banked paver turns than Discovery
 - Explorer - Blue - very banked paver turns at top, too narrow at very bottom for 3 wheel bike?
 - Discotech - Blue - much more banked turns with more obstacles
 - From Main Lodge
 - Downtown
 - to Chair 2 - smooth trail, one tight section at the end on loose slope and off camber section
 - to Paper Route - this has some more obstacles, nothing large but more to think about
 - to Gopher Trail - nice smooth cross country trail
 - to Big Ring and back to Downtown (have not done final section to Canyon Lodge) - can access from Paper Route or Gopher Trail, fun and smooth, 1 or 2 rocky sections to get lined up right on with adaptive bike.
 - to the Village - make sure you're prepared to ride back up, take the shuttle or have a ride
 - Beach Cruiser - pedal up to ridge by chair 12/13, can go around Reds Lake or take Shortcut
 - to Mountain View - ride around Reds or shortcut, then turn off onto Mountain View. Can connect to Minaret Summit then down to dirt road near chair 2, or continue all the way to the earthquake fault.
 - From Chair 2 area
 - Mountain View up to bridge then back down to fire road, then back up to chair 2 dirt road
 - Gondola
 - Midtown
 - Brake Through?

Natural history or other facts of interest:

- Mammoth Lakes was originally settled by the Mono People, then miners, then loggers. Currently the economy is driven by tourism.
- The town lies along the edge of the Long Valley Caldera, one of the Earth's largest calderas. It was formed 760,000 years ago, and released ash that travelled as far away as Kansas. There are many hot springs in this area, as well as a geothermal power plant. There are also a lot of very light rocks - pumice - which is caused by rapid eruption and cooling of pressurized rock in a volcano.
- Wildlife sightings may include: black bears, mountain chickadee, Clark's nutcrackers, stellar jays, warblers, sparrows, mountain bluebirds, red tailed hawks, eagles, mule deer, coyotes, and more!
- There are many commercials and TV show and movie scenes that have been filmed in the Mammoth Lakes area.
- Mammoth Mountain was founded in 1953 by Dave McCoy. It tends to hold more snow than other mountains in the area, making it a great ski destination many months of the year. The mountain is a lava dome complex formed 110,000 to 57,000 years ago

Emergency/Safety Information:

- Pre-activity Preparation:
 - Supervisors:

- On site - name and telephone:
 - Office - name and telephone:
 - Know names and number of participants including athletes, volunteers, staff, and caregivers/family members participating in the activity.
 - Share cell phone numbers if appropriate before the start of activity.
 - Must have athlete, staff, and volunteer information including:
 - Disability information,
 - Allergies and medical notes,
 - Emergency contact information.
- Nearest medical facility name, address, and telephone:
 - Mammoth Mountain Bike Patrol
 - Tel: 760.934.0611
 - Location: lower northeast corner of Main Lodge, near base of Chair 1, accessible from parking lot
 - Mammoth Hospital
 - Tel: 760.934.7302
 - Address: 85 Sierra Park Rd, Mammoth Lakes, CA 93546
 - This address may take you to the orthopedic institute; be sure to follow signs to the Emergency Room.
 - Directions from State Route 203/Main St ([Appendix](#)):
 - head east on Main St/State Route 203;
 - turn south on Sierra Park Rd;
 - turn east following red signs for “Emergency”;
 - continue following “Emergency” signs to Emergency Room.

Emergency Action Plan:

- When calling 911, Bike Patrol, or other emergency support, clearly state:
 - Your Name;
 - Location (make sure 911 operator knows you are calling from Mammoth Lakes, June Lake, or Bishop);
 - Nature of Incident;
 - Call back number.
- Type of emergency and special response actions:
 - Medical Injury/Accident
 - Size up and secure the scene.
 - Assess the victim(s).
 - Call Bike Patrol or 911, or have someone else call.
 - Contact the onsite manager, or have someone else call - inform them of the incident, who is involved, your location, and your plan of action.
 - If trained and certified, administer first aid to your level of certification.
 - Comfort victim(s) until help arrives.
 - Fire
 - Size up and secure the scene - do you need to stay where you are or move to stay safe? Can you safely return to the main site? Do you have an adequate escape route (fire)? Do you have adequate shelter?
 - Call Bike Patrol or 911 if appropriate.
 - Contact the onsite manager - inform them of where you are, what you need, and discuss a plan.

- Keep people comfortable.
 - If there are changes to conditions, may need to repeat these steps to assess safety and change plans as necessary.
- Wind Event
 - See “Fire” above
- Earthquake
 - See “Fire” above
- Complete incident report if there are any accidents or near misses - turn in within 24 hours.
